**PETROLEA.** An inc town 160 mls from Toronto, located on Bear creek, a tributary of the Sydenham river, in the heart of the oil producing region of Canada. The Petrolea brs of the GW div GTR, and of the C div MCR both terminate here. It is in Lambton Co, 16 mls s-e of Sarnia, the co seat. The oil producing belt, so far as proved, extends from the n-w to the s-e for about 20 mls, with a width varying from 1 to 4 mls, and an immense quantity of oil is obtained from this area, of which Petrolea occupies the centre. There are 9 large refineries in the vicinity of the town which produce about 3,500 barrels of refined oil per week. Ample facilities are provided for storing the crude oil by several companies, who have storage for upwards of 500,000 barrels in underground tanks. The total amount of capital invested in the oil industry in its various branches is estimated to be but little short of $10,000,000. It was inc as a town in 1874. It has 3 foundries and machine shops, 2 boilerworks, flour, planing and saw mills, etc, Epis, Cath, Meth, Bap and Pres churches, high and public schools, 2 banks, a public hall, a town hall, Masonic Temple, and 2 weekly newspapers, the *Advertiser* and the *Topic*, a mechanics' institute and an opera house. Petroleum is the chief shipment. It has a good volunteer fire department. Pop, 5,000. Tel, GNW and CPR. Telephone connection. Exp, Can. Mail daily. Patrick Barclay, p m.

# THE DAILY SENTINEL

## AND NORTH SHORE MINER,

PUBLISHED BY THE

**Thunder Bay Sentinel Printing Co., Port Arthur, Ontario.**

A. SQUIER, Mayor, President. LT. COL. RAY, Banker, Vice-President.
GEORGE H. MACDONELL, Sec'y. W. J. PURCELL, Business Manager.

THE DAILY SENTINEL, published every afternoon except Sunday, is the leading Daily Journal between Toronto and Winnipeg, and located at the gateway of the great North-West and the headquarters of one of the richest of known mining districts, it occupies a standing of peculiar influence and importance. As a medium through which advertisers may reach the now numerous inhabitants of the Thunder Bay District, it is pre-eminent. It is the oldest established paper in the district, most widely circulated and read and the most popular.

**ST. CATHARINES.** An inc city on Twelve-Mile creek, and the principal place on the Welland canal, which unites lakes Ontario and Erie, and from which excellent power is obtained, in Lincoln Co, of which it is the co seat. It has good railway facilities, being on the main line of the GW div and on the Welland ry of the GTR system, the latter road running from Pt Dalhousie, Lake Ontario, to Pt Colborne, Lake Erie. The St C & NCR is now in active operation, 12 mls of road being completed. It was inc as a city in 1876 and has several extensive manufacturing industries, flour, cotton and planing mills, saw works, furniture factories, ship-building yards, foundries and machine shops, axe and edge tool works, cotton batting factory and wine manufactories, 3 Epis, 3 Cath, 4 Meth, 3 Pres, 2 Bap and a Cong church, a collegiate institute, public and separate schools, a free library, an opera house, 3 chartered banks, court house and co buildings, custom house, 3 daily newspapers, the *Gazette*, the *Star* and the *Journal*, the two latter and the *News* having weekly editions. Flour, fruit, grain, produce, stone and the products of the various manufacturing establishments are shipped. The city is lighted with gas and electric light, has an excellent system of water supply owned by the city, a fire department and an electric street ry, which runs to the neighboring towns of Thorold and Merritton. Extensive quarries of excellent stone are worked in the neighborhood. It contains a general and a marine hospital, an orphan asylum and other charitable institutions. During the season of navigation there is steamboat communication with all parts of the lakes and the St Lawrence river. Stages daily to Niagara, fare 50c, and tri-weekly to Beamsville, Jordan and Smithville. Pop, 10,500. Tel, GNW and CPR. Telephone connection. Exp, Can and Dom. Mail daily. Distance from Toronto, by water 34 mls, by ry 71; from Hamilton, 32 mls; from Suspension Bridge, 12 mls; from Buffalo, NY, 36 mls, and from Montreal, 404 mls. Robert Lawrie, p m.

**ST. THOMAS.** A city situated on the banks of Kettle creek (which supplies power), in Elgin Co, of which it is the co seat. It is an important ry centre, being the principal stn in Canada of the C div MCR and the point of junc of the St C br, and on the Loop line and L & PS br of the GW div GTR, and the present western terminus of the CV line O div CPR. The L & PS br gives it access to Pt Stanley, 9 mls s, a good harbor on Lake Erie, whence steamboats run to Cleveland, Ohio, and other lake ports. Incorporated as a city in 1881. It has a number of important manufacturing industries, including saw, planing, flax and flour mills, foundries, agricultural implement works, breweries, brick yards, while the extensive workshops of the MCR give employment to a large number of men. It contains 13 churches, viz, Epis, Cath, Bap, Meth, Pres, Cong and Ref Epis denominations, the Alma Ladies' College and St Thomas Business College, a collegiate institute, model, ward and separate schools, a free library, a town hall, an opera house, 4 chartered banks, several loan and savings societies and 2 daily newspapers, the *Journal* and the *Times*, both of them issuing weekly editions. Grain, live stock, flour, fruit and the productions of the various manufactories are shipped. The city is lighted with electric lights, has an efficient water supply on the Holly system, a good fire brigade and hall. Stages daily to Fingal, 7 mls w, and to Union and Sparta s, and tri-weekly to Tempo and Frome. Pop, 10,408.

Thompson Wm, carpet weaver.
Trachsel David, flax mill.
Wettlauffer Charles, boots and shoes.
Whiteman Robert, physician.

**SHALLOW LAKE.** Sydenham tp, Grey Co, as its name implies, was a shallow sheet of water, 2 mls from Allenford Station, on the GTR, and 8 w of Owen Sound. The water has been recently drained off with the intention of converting it into pasture land, when it was discovered the bottom was covered with a deposit of clay, which by a careful analysis has disclosed all the necessary ingredients for making a very high grade of Portland Cement. The owner soon realizing the value of such a deposit, a joint stock company was organized, known as *The North American Chemical Mining and Manufacturing Co of Ontario (Ltd)*, with a capital stock of $100,000, divided into 200 shares of $500 each. The company as organized are Samuel Lloyd pres, John Corbet vice-pres, R L F Strathy sec-treas, R P Butchart mngr, R J Doyle, H B Harrison, E W Wand, Wm Lewis, Wm Robinson and E Todd directors. The promoters of this enterprise, being satisfied of the great value of this deposit, have erected a test kiln for burning the material, and have been rewarded with the greatest success, viz: manufacturing Portland cement of the highest quality. The company have had their raw material and the cement produced from it tested by experts, who have pronounced it superior to all the best brands of English, French or German Portland cements. It is estimated that this material is in sufficient quantities to produce 100 tons per day for sixty years, the market value of the daily out-put contemplated by these works being not less than $1,000 at wholesale prices. The object of this company is to manufacture cement, putty, whiting brick, drain and other tiles, and barrels, boxes and other packages for their manufactures, and such other articles of commerce as shall be decided upon from time to time. I have had the pleasure of visiting these mines personally. On the 23rd day of July Mr. R P Butchart very kindly showed me through the building, and explained the workings of the machinery, the nature of the clay, etc. This notice is given not for pay, but for the purpose of drawing attention to what I believe to be another important discovery for Canada.—J M Might.

**SHAMROCK.** A P O in Renfrew Co, 40 mls s of Pembroke, the co seat, and 11 s-w of Renfrew, on the CPR, the nearest ry and bnkg point. It contains a public school. Stage three times a week to Renfrew, fare $1. Pop, 50. Mail tri-weekly. Patrick Gorman, p m.

Watson Walter, justice of peace.

**TORONTO.** The largest city and the capital of the Province of Ontario, is beautifully situated on the shore of a spacious bay of Lake Ontario, in York Co, of which it is the co seat. Toronto has an excellent harbor, accessible to the largest craft navigating the lakes, and which is perfectly sheltered by a long narrow island extending about five miles along the front of the city, at a distance of about one and a half miles from the shore, forming a safe anchorage ground. It was incorporated as a city in March, 1834. The city is laid out with great regularity, the streets running n, s, e and w.

The growth of Toronto may be seen from the following table of its population at various periods, viz:

| | | | |
|---|---|---|---|
| 1836 | 9,652 | 1875 | 74,000 |
| 1842 | 15,336 | 1881 | 87,000 |
| 1845 | 19,706 | 1886 | 124,000 |
| 1850 | 26,000 | 1888 | 153,000 |
| 1856 | 45,000 | 1889 | 171,822 |
| 1861 | 48,000 | 1890 | 216,066 |
| 1871 | 59,000 | 1891 | 226,000 |

Mr. Van Horne, no mean authority, has stated that within twenty years Toronto will have a population of 500,000. It is true that Toronto is to some extent prospering at the expense of surrounding towns and villages. This, of course, we cannot help. It is in the natural order of things, and it is our duty to take advantage of the situation.

In addition to its facilities for communication by water, Toronto is the centre of an extensive ry system, the following rys either running through or having one of their termini in the city: The main line of the GTR, with its Mid, Nip, N & NW and GW divs, and the CPR, with its divs of the CV, the TG & B and the O & Q lines.

It has excellent hotel accommodation, the Queen's, Rossin, Arlington and Palmer Houses, and the largely patronized and commodious hotel, the Walker House, which has been newly decorated throughout, offering fine inducements to the public.

Manufacturing of almost every description is extensively carried on, and a glance through the directory following will show desiring purchasers that their wants can be supplied with any article used in their respective trades.

In the matter of education Toronto takes a high rank, having located within its boundaries the following educational establishments: The University of Toronto, University College, University of Trinity College, Knox College, Wycliffe College (Protestant Episcopal Divinity), the Baptist College (McMaster Hall), St Michael's College (Catholic), the Bishop Strachan School for Ladies, the Upper Canada College, the Toronto Collegiate Institute, the Royal College of Dental Surgeons, the School of Dentistry, College of Physicians and Surgeons of Ontario, Ontario College of Pharmacy, School of Practical Science, Ontario Veterinary College, Women's Medical College (in affiliation with the University of Trinity College), Toronto School of Medicine, Trinity Medical School, Ontario School of Art, to which may be added a number of convents and private schools, musical conservatories, etc, all first-class in their several appointments.

The schools, etc., belonging to the city comprise a model school, a normal school, a colle-

giate institute and 48 public schools, the total number of pupils being 23,108, of teachers 484, and the value of the school property $1,214,080, and 17 separate schools. The Department of Education is situated on Gould street between Victoria and Church streets, and has a library of 8,500 volumes. The public buildings connected with the Government, comprise the Parliament Buildings, interesting mainly from their associations (new stone buildings on an elaborate scale are now being constructed at a cost of over $2,000,000); a valuable library of 35,000 volumes is kept here; the Government House, the official residence of the Lieut.-Governor; the Custom House, cor Front and Yonge streets, and the Post Office building, on Adelaide street, both handsome cut-stone structures; the Asylum for the Insane; the Central Prison; the Mercer Reformatory; and Osgoode Hall, containing the various superior Law Courts of the Province, with a magnificent law library of 20,000 volumes, the property of the Law Society of Ontario. There is an interesting museum attached to the Normal School, containing specimens of school apparatus and furniture, a valuable collection of Dutch, Flemish and Italian paintings, etc. There is also the magnetic observatory and the principal meteorological office for the Dominion of Canada located in Queen's Park, and a public library containing 60,892 volumes and about 10,000 pamphlets, being constantly added to as occasion offers. The principal civic building will be the new Municipal and County Building, soon to be erected, to cost about $2,500,000, situated on Queen street w, at head of Bay street. The Canadian Institute on Richmond street is an important scientific institution, with a library of 4,000 volumes. The public buildings to be especially noted for their beauty of architecture, etc, are: The Bank of Montreal and the Board of Trade Building, cor Yonge and Front; the British America Assurance Co's Buildings, cor Scott and Front streets; Building and Loan Chambers, 13 and 15 Toronto street; Canadian bank of Commerce, cor King and Jordan streets; Canadian Institute, cor Richmond and Clare; Canada Life Assurance Chambers, 44 King w; Canada Permanent Buildings, 18 Toronto; Central Prison, Strachan av; Confederation Life Building, cor Yonge and Richmond; Custom House, cor Front and Yonge; Dominion Bank, cor King and Yonge; Educational Buildings, St James square; Imperial Bank, Wellington e; Knox College, Spadina crescent; McMaster Hall, Bloor w; Manning Arcade, 22-28 King w; Mercer Reformatory, King w, North of Scotland Chambers, 18 King w; Ontario Bank, cor Scott and Wellington; Osgoode Hall, Queen head of York; Post Office, head of Toronto; Quebec Bank, cor King and Toronto; Queen City Buildings, 24 Church; St Michael's College, St Joseph street; School of Practical Science, Queen's Park; Toronto Arcade, Yonge opposite Temperance; Toronto Bank, cor Wellington and Church; Toronto General Hospital, Gerrard e; Toronto University, Queen's Park; Traders' Bank, 61-63 Yonge; Trinity College, Queen w; Western Assurance Co's Building, cor Wellington and Scott; Wycliffe College, Queen's Park, and numerous private buildings that will compare favorably with those of any other city on the continent. The city is well provided with charitable institutions, having a large General Hospital, the Girls' Home, the Boys' Home, the Home for Incurables, Infants' Home and Infirmary, the Hospital for Sick Children, the St Nicholas Institute for boys, the House of Providence, the Notre Dame Institute, etc, etc. The Queen's Park, the Horticultural Gardens, the Island, the Exhibition Park and several other parks of lesser note furnish the citizens of Toronto with ample places for recreation. There are three opera houses, the Grand, seating 1,700; the Toronto Opera House, seating 1,800; the Academy of Music, seating 2,000; and the Pavilion Music Hall seating 2,200. There are 14 chartered banks doing a general business in the city and 15 savings banks, also a number of loan and investment companies. Six daily newspapers are published and 48 weekly, 11 bi-weekly, 55 monthly, 3 quarterly and 3 yearly papers and magazines are issued from the presses of the city. The assessed valuation of real and personal property for 1890 is $136,500,000, and the bonded indebtedness: Gross debt $15,747,560, general debt $11,513,590, local improvement debt $2,583,970 and sinking fund $1,650,000. The city has an excellent water supply, pumped from the lake (from outside the island) into a large reservoir, situated at Rosedale, 216 feet above the level of the lake, and 9½ acres in extent, containing 33,473,000 gallons; an efficient fire brigade located at 15 stations, furnished with fire alarm telegraph and all modern appliances for fire extinction; a police patrol wagon system, making the police department efficient in every respect. The city is lighted with gas and has the electric light in addition; telephone facilities and an excellent well-arranged street car service. During the season of navigation steamboats and propellers run daily to all parts of the great lake system, the Royal Mail line running to Montreal, and special lines running to Montreal, Niagara, Wilson, N Y, Hamilton, Oakville and other ports. The city returns 3 members to the House of Commons, and 3 to the Provincial Legislature. Tel, GNW and CPR. Exp, Dom and Can. Distance to Montreal 333 mls, to Quebec 505 mls, to Ottawa 261 mls, to Windsor 225 mls, and to Sarnia 168 mls. Thomas C Patteson, p m.

# E. R. C. CLARKSON, F.C.A.

## Chartered Accountant, Trustee, Receiver,

FINANCIAL AGENT,

**TORONTO, ONT.**

AGENCIES AT MONTREAL, QUE., AND WINNIPEG, MAN.

Correspondents at London, Glasgow, Huddersfield, Bradford, Birmingham.

Foreign References :—Messrs. A. & S. Henry & Co., Bradford ; The City Bank, London.

DEAR SIR,—In 1864 my father, the late Thos. Clarkson, first began to practice in Toronto as an Official Assignee and Accountant.

In 1868 the firm of Clarkson & Munro, composed of Mr. W. F. Munro and myself, was formed, and continued the business until 1873, when it was assumed by Turner, Clarkson & Co., and later on, in 1879, by Wemyss & Clarkson, which firm was dissolved in 1881, when I became sole proprietor.

This practice has thus been in continued operation for twenty-six years, and during this long term it has increased steadily from year to year, from which the inference may fairly be drawn that it has been conducted upon proper principles, that the management has been effective and acceptable, and has obtained a large percentage of favorable results in the liquidation of estates entrusted to its care.

Consequent upon the continued growth of the business, it has been found advisable to divide it into two branches, and the new firm of CLARKSON & CROSS, composed of the writer and Mr. W. H. Cross, F.C.A., has been formed.

In future all matters of accountancy will be under the management of Mr. Cross, assisted by Mr. N. J. Phillips. Mr. Cross is an experienced and practical Accountant, and his extended knowledge of business matters will be of great service to the clients of the firm. Mr. Phillips has been with me for four years, during which he has had charge of the most important part of the accountancy work of the office.

This change will enable us, assisted by Mr. H. O. Bennett, Mr. J. B. Cormack, Mr. J. C. Macklin, Jr., and Mr. T. E. Rawson, all of whom have been with me for years, to devote our whole time and personal attention to the settlement of the affairs of insolvent estates.

The office is fully equipped, and at all times prepared to receive and faithfully attend to the smallest as well as the largest cases.

E. R. C. CLARKSON.

# A TRIUMPH IN STEAM ENGINEERING!

## STEAM USERS

Do you wish to save fuel?
Are you short of boiler power?
Do you wish to keep your boiler clean?

# The ENO STEAM GENERATOR will do it.

This invention **accomplishes for steam users** all that has been vainly sought in the past, and secures at small additional cost the following demonstrated advantages, viz.: A very rapid and economical generation of steam. A large increase in the quantity of steam produced. A rapid, positive and continuous circulation of the water in the boiler and generator, preventing foaming and priming. The separation and removal of all sedimentary matter. The increased durability and safety of the boiler. A large reduction in the quantity of fuel required. **A saving of from 15 to 30 per cent.** in the cost of coal consumed or steam produced **is guaranteed** by the company.

This apparatus is simple, strong, durable, easily applied to any boiler, is perfectly automatic in its operation and requires no attention. It has no valves to get out of order, and no coils or return pipes to clog and obstruct the circulation, but both the water and steam always flow in a **direct** continuous and constant current. It gives 96 to 120 additional square feet of heating surface, and keeps in the fire a sheet of water over 6 feet sq. and only ⅝ of an inch thick, with both sides exposed to the heat, thereby converting the water into steam with marvellous rapidity and causing an immense circulation, which prevents deposit of sediment and formation of scale and largely increasing the efficiency and durability of the boiler, and a pure **dry steam** is produced instead of the saturated compound almost invariably produced by the ordinary process.

The rapid circulation and removal of the sedimentary matter can be witnessed at our office, where we have a boiler with the top cut out and a generator attached, with glass connections. The process is thereby distinctly revealed to the eye.

**The application of this generator to boilers in daily use has demonstrated** that its employment will **save from 20 to 30 per cent.** of the fuel, or with the use of the same quantity of fuel will increase the amount of steam produced **from 25 to 50 per cent.**, while the time heretofore required to raise the steam to its full pressure is thereby **reduced one-half.**

*For descriptive Catalogue with full particulars, apply to*

(OVER.)

# THEY SPEAK FOR THEMSELVES

## Hear What They Have to Say!

*In the Report of a Mechanical Test of the Eno Steam Generator, Mr. Crane, an Expert Engineer, after giving details of the test, states as follows:—*

I, therefore, conclude:—1st. That the boiler is of a very uncommon efficiency, being able to evaporate over 5½ lbs. of water per hour per square foot of heating surface.

Boilers of various other constructions operating under the same conditions of draught and fuel, would evaporate from 2 to 3 lbs. of water to per square foot of heating surface.

2nd. That the boiler is of uncommon power in proportion to its heating surface, being able to generate from ⅛ to ⅕ of a horse power per square foot of heating surface, while boilers of other constructions, operating under the same conditions, would generate from 1-10 to 1-15 of a horse power per similar square foot.

I, therefore, regard the attachment as of decided merit, and consider that it would be decidedly profitable to use such attachment in other styles of boilers now in common use, the saving of fuel amounting, by the use of Mr. Eno's improvement, to some proportion between 25 and 35 per cent. Very respectfully yours,

THOS. S. CRANE, Mechanical Engineer.

NOTE—By referring to the following testimonials, it will be seen that the above report has been verified by actual practice.

---

*The Eno Steam Generator Co.:* 83 TO 95 RICHMOND ST. WEST, TORONTO, July 21, 1890.

GENTS—In reply to your enquiry about the Eno Steam Generators attached to our boilers in April last, we are glad to say that so far as the test has been made the result is entirely satisfactory. Previous to attachment we were short of steam, but now we have plenty, the engine being speeded ten revolutions per minute (with increase in shafting), and at the same time we are burning over 500 lbs. of coal per day less than previously. It is also keeping the boilers clean, even old scale being removed by the rapid circulation, and the labor of firing is greatly reduced. Yours respectfully, JAMES MOORING, Engineer, LANGLEY & BURKE, Proprietors.

---

Office of J. S. MUNDY, Manufacturer of Hoisting, Mining, Stationary and Mud-Dredging Engines, Mining Machinery, Stamp Mills, Steam Boilers, Forgings, Mill Gearing and General Machinery.

*The Eno Steam Generator Co.:* 22 TO 34 PROSPECT ST., NEWARK, N.J., January 19, 1887.

GENTLEMEN—I am more than pleased with the results obtained from your Generator; I formerly found it difficult to keep up the pressure of 75 to 80 lbs. without constant attention to the fire The coal was weighed before and after the Generator was put on, and to my surprise I found I was saving about 700 lbs. of coal per day, and more steam being used at this time than there was before the Generator was attached. It has been subjected to a terrific heat at times and has so far given no trouble or shown any signs of leaking. A few days ago I had a hole bored in one of the connections to ascertain if any scale or sediment had collected, and the part examined was as clear and clean as when put on. I consider it the best coal-saving device I have ever seen, and recommend it to all who wish to save money. Another item in its favor is the American Steam Boiler Insurance Company do not hesitate to write a policy covering it as well as the boiler it is attached to.

Yours respectfully, J. S. MUNDY.

---

*The Eno Steam Generator Co.:* NEWARK, N.J., January 15, 1889.

GENTLEMEN—I am now setting a new boiler, and I wish you to construct and attach one of your Generators as large as will connect with this boiler. The Generator attached to my present boiler is working splendidly. I do not think any one can afford to be without this attachment unless they have plenty of money to throw away in fuel. My experience with your Generator that has been in use for two years has been that it has saved me fully 20 per cent. in my coal bill. Yours respectfully, J. S. MUNDY, L.M.

# Maguire's Sewer Gas Preventive, Flushing & Self-Cleaning Trap.

**SEWER PIPES, Chimney Tops, Fire Brick, Fire Clay, Portland and Native Cements always on hand.**

Telephone 208.

**WILLIAM MAGUIRE,**

Successor to Robt. Carroll,

84 ADELAIDE ST. WEST, TORONTO.

**SEWER PIPES.**

SEWER PIPES, Flue Linings, Chimney Tops, Lime, Fire Brick and Fire Clay. Portland and Native Cements, Calcined Plaster always on hand.

## NOTICE.

Particular attention is directed to the formation and construction of the MAGUIRE TRAP. Sanitary experts, engineers, architects, plumbers and builders, after subjecting it to the severest tests, have declared it to be worthy of their unqualified approval. Leading physicians also declare that where it is used, typhoid fever, diphtheria and other infectious diseases are much less prevalent. In the city of Toronto there is a very large and constantly increasing number of these traps being used, and in every instance they are giving perfect satisfaction.

# IN CANADA AND NEWFOUNDLAND

The Salvation Army has 394 Corps and Outposts, also Rescue and Drunkards' Homes.

The address of the Territorial War Office is Albert Street, Toronto, Ontario.

Commissioner T. H. Adams, Commander of Canadian and Newfoundland Forces.

The work in Canada was commenced in 1883, and has rapidly spread all over the Dominion, until from ocean to ocean the message of Salvation is being faithfully carried to the people by nearly one thousand officers. 250,000 meetings are held in Canada yearly.

The publications of the Army in Canada alone have a circulation of over 2,000,000 copies annually.

*Places where Corps of the Salvation Army have been established and where meetings are conducted any night in the week and all day on Sunday in the Dominion:*

# THE SALVATION ARMY.

## WHAT IS THE SALVATION ARMY?

A force of converted men and women banded together after the fashion of an army who intend to make all men yield, or, at least, *listen* to the claims which God has to their love and service.

## WHEN, WHERE AND BY WHOM WAS IT ORIGINATED?

In the east of London, England, in the year 1865, by the Rev. WILLIAM BOOTH, its present leader.

WILLIAM BOOTH was born in Nottingham, England, in the year 1829 ; brought up in the Church of England and converted amongst the Wesleyans ; he afterwards became a minister of the Methodist New Connexion, and preached in a great many parts of England, seeing great success, multitudes being led to Christ. In the year 1861, he resigned his position as a regular minister, and gave himself up, with his wife, to evangelistic work. After this their united labors were very largely owned of God, thousands being received into the various churches as a result. In the year 1865, MR. BOOTH was led by the Providence of God to the east of London, England, where the appalling fact that the enormous bulk of the population were totally ignorant of real religion, and altogether uninfluenced by the existing organizations, so impressed him that he determined to devote his life to *making* these millions *hear* and *know* God, and thus save them from the abyss of misery in which they were already plunged, and the still greater woes that were before them.

## THE SALVATION ARMY IS THE RESULT.

## HOW DOES THE ARMY OPERATE?

1. By holding meetings out of doors, and marching and singing through the streets, in harmony with law and order.

2. By visiting saloons, hotels, prisons, private homes, houses, etc., and speaking to, and praying with all who can be got at.

3. By holding meetings in theatres, music halls, saloons and other common resorts of those who prefer pleasure to God, and by turning factories, warehouses and other buildings into meeting rooms, so securing hearers who do not attend ordinary places of worship.

4. By using the most popular song tunes and the language of *every day life*, not only to convey God's thoughts to every one in novel and striking forms, but in such language as can easily be understood.

5. By making every convert a daily witness for Christ, both in public and private.

So rapidly has the Salvation Army developed that at the end of June, 1890, it possessed an established work in 38 countries and colonies. Its officers are preaching the Gospel in 36 different languages ; its publications are circulated at the rate of 34,000,000 copies annually ; 3,000,000 homes are visited yearly, and 2,500,000 meetings are held every year.

**NORTH BRITISH AND MERCANTILE FIRE AND LIFE INSURANCE CO.**

Head Office for Canada,
78 St. Francois Xavier Street, Montreal.
Offices in all the principal Cities and Towns in Canada.

**WALKERVILLE.** A village on the Detroit river, in Essex Co, 4 mls n-e of Sandwich, the co seat, and bounding the town of Windsor. It is one of the termini of the LEE & DRR. By the opening of this line (in January 1889), Walkerville has secured excellent shipping facilities, having direct connection with the GTR, MCR and CSR, in addition to its unsurpassed water communication. Numerous factories have been established during the past year, and with others in contemplation the indications point to this being one of the most important manufacturing points in Canada. The village takes its name from Mr Hiram Walker, who founded in 1858 the extensive distilling and malting business of Hiram Walker & Sons, who carry on many other industries also, including lumber yards, planing mills, cooperage, brick yards, copper and blacksmith shops, hop and tobacco farms, in addition to which they practically own the village, having the controlling interest in the LEE & DRR, Walkerville and Detroit Ferry Co, Ontario Basket Co, and large shareholders in the Walkerville Malleable and the GlobeFurnitureCos. There are also the large foundry and engine works of Messrs Kerr Bros, and the Barnum Wire and Iron Co. The village is lighted throughout with incandescent electric lamps, and has an excellent water supply, both from the plants of Hiram Walker & Sons, who maintain also an efficient fire brigade, police force, staff of night watchmen and a telephone office, open day and night. It contains a commodious music hall, a water-side club house, churches and public schools and a chartered bank. The station of the LEE & DRR, is a fine specimen of architecture. Pop, 1,000. Tel, GNW and CPR. Exp, Can. Mail daily. George W Busch, p m.

**WINDSOR.** An important inc town on the bank of the Detroit river, immediately opposite to the city of Detroit, Mich, in Essex Co, 2 mls n-e of Sandwich, the co seat, with which it is connected by a street ry. It is the western terminus of GW div GTR and of the C div MCR and S div of the CPR, all these lines having powerful steam ferries for conveying their cars across the river, which is thus kept open during winter. It was laid out in 1834, and has several important manufacturing industries, and contains Epis, Cath, Bap, Meth, Pres and Bible Christian churches, model, high, public and separate schools, a convent, an opera house and town hall, 3 banks and 4 weekly newspapers, the *Windsor Record*, the *Essex Review*, the *Clarion* and *Le Progresse*. The town is lighted with electric lights and gas, has an excellent water supply, a fire department, and telephone communication with the Ontario and Michigan systems. During navigation it has daily steamboat communication with all parts of the lakes and river systems, and ferries to Detroit run every 5 minutes during the day. Pop, 11,000. Tel, GNW and CPR. Exp, Can and Dom. Mail daily. Distance from Toronto 225 mls, from Montreal 558 mls. Alfred Wigle, p m.
